

## JORDAIR MODEL JAC2-4500-RP AIR-KART STORAGE SYSTEM

Jordair breathing compressors and air filter systems meet or exceed the latest CSA standard CAN/CSA-Z180.1-00 (approved January 2001).

- Model JD-4500 CTC cylinders
- Regulator 6000 PSIG inlet, 0-400 PSIG outlet
- 4" inlet and outlet pressure gauges
- Single or dual hose reels
- 100 feet of BA hose per reel
- 4 LP outlet quick disconnects
- Safety valve to protect the LP system
- Cylinder isolation valves
- CGA 347 connection for filling
- Large wheels for ease of movement
- Tilt frame with locking wheels

### Jordair QC Program

- ISO 9001:2008 Cert. 97-544
- CSA Cert. No. LR77799
- CRN Pressure Components
- B&PV Licence MA-2007

### System Features:

- 4500 PSIG Cylinders
- Pressure Gauge
- Hose reel with 100 Ft of BA hose
- CRN certified components

- Cylinders are complete with individual shutoff valves and safety burst disks.
- The complete system is fully assembled and pressure tested.

The Jordair Model JAC2-4500-RP AIR-KART is available with a single or dual manually retractable hose reels and 100 feet of breathing air low pressure hose. The panel mounted regulator system includes large 4" inlet and outlet gauges, a pressure reduction regulator, a safety over-pressure protection valve and four low pressure disconnects. The standard unit is supplied with two 4500 PSIG 444 cubic foot CTC certified cylinders. The same unit is also available with optional 2400 PSIG 300 cubic foot cylinders.

The frame is designed to tilt back and has a locking wheel to hold the cart on uneven or sloped grades. The frame is made in 2" structural tube and powder coated for corrosion protection.

MODEL	HOSE REELS	CAPACITY	PRESSURE	WEIGHT (KG)	SIZE (CM) H x D x W
JAC2-4500-RP1	1	888 FT <sup>3</sup>	4500 PSIG	195 KG	140 x 75 x 66
JAC2-4500-RP2	2	888 FT <sup>3</sup>	4500 PSIG	205 KG	140 x 75 x 66
